Portfolio ~ Master utsav

Projects

Course Yuga │ Github │ Live Link

Tech - (React, Tailwind CSS, Framer Motion, TypeScript, ExpressJs, MongoDb)

Purpose - Gathering all the courses which are freely available on youtube and other popular courses. So that user can access all that from a single site. Admin can upload a new course and manage that course on Course Yuga. Users can enroll that along with free youtube courses and track progress.

Master Utsav │ Github │ Live Link

Tech - (React, NextJs, TypeScript, Tailwind CSS, Framer Motion, GSAP)

Purpose - Just for showcasing myself, what type of designs and animation i can think and build. My Portfolio is all about my journey, my experiences, my tech stack and my frontend skills

ThreeJs Portfolio │ Github │ Live Link

Tech - (React, TypeScript, ThreeJs, Tailwind CSS, Framer Motion, GSAP)

Purpose - Another showcasing portfolio, which tells that I know implementation and how to interact with 3D models in web pages. I built that while I was learning ThreeJs.

Master's Recipe │ Github

Tech - (React, TypeScript, Expo)

Purpose - I designed the whole App and built that from scratch via reading docs of expo. It is just a frontend part of the App which has features of finding any recipe of the dish.

Education

B.tech–CSE │ **LNCT, Indore** │ 2022 - 2026 │ **CGPA: 7.2** (2022 - current)

XII (MP Board) │ **The Radiant Hr. Sec. School , Gwalior** │ **90.2**% (2021)

X (MP Board) │ **The Radiant Hr. Sec. School , Gwalior** │ **91.8**% (2019)
